Textbook

HTML Project # 1 Basic Web Practice

Prerequisite Voyage Lessons: HTML Basics, Heading Tags, Text Colors, Fonts, HTML as a Language, HTML Structure, Background Color, HTML Title

Create a website that advertises your favorite food. You might consider including "why it is our favorite food" or "what goes into the food".

In your website make sure to include:

- Include a DOCTYPE declaration.
- Use correct HTML structure with `<html>`, `<head>`, and `<body>` tags.
- Include a title tag for your website.
- 3 heading tags.
- Each heading tag will have a font color other than black.

- Each heading tag will have a font family different than the default.
- A background color other than white.

Checkpoint

Basic Web Practice

- Include a DOCTYPE declaration.
- Use correct HTML structure with <html>, <head>, and <body> tags.
- Include a title tag for your website.
- 3 heading tags.
- Each heading tag will have a font color other than black.
- Each heading tag will have a font family different than the default.
- A background color other than white.

Example Output

Where does it originate from?

American Spaghetti

Ingredients
